

Whether fitting the windscreen washer bottle to a right or left hand drive car, the washer bottle mounts on the front bulkhead to the opposite side to the pedals.

The pictures in the following procedure show the washer bottle being fitted to a right hand drive car, for a left hand drive fitment, move the mount to the other side.

Tools Required

6.5mm Drill
Flat Blade Screwdriver
10mm spanner

Fitting The Windscreen Washer Bottle

1. Position the windscreen washer bottle in a suitable place on the bulkhead panel, keeping as close to the outside as possible.
2. Mark where the two holes in the mounting bracket are on the bulkhead panel and drill with a 6.5mm drill-bit.
3. Secure the bracket to the panel with
 - 2 x 20mm long x 6mm setscrews
 - 4 x 6mm plain washers
 - 2 x 6mm nyloc nuts

Do not fit the screen washer pipe until the scuttle and washers jet is fitted.
